

All Kids Are Smart!

By Victoria Carlton aka "The Child Whisperer"

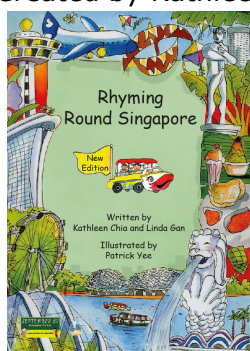

A definitive guide for teachers and parents who wish to ensure ALL children reach their full potential.

- What is intelligence and how do we build it? How to identify and improve the intelligences?
- Building the basics -maths, reading, writing and spelling.
- Identifying learning styles.
- Improving oral language.
- Using music to enhance learning.
- Improving emotional intelligence to build self-esteem and confidence.
- Games and activities to improve basic learning skills.
- Strategies for teachers to use in classrooms to build learning potential.
- How to improve focus and concentration skills.
- Ways to improve imagination and visualisation skills to enhance creative thinking and writing skills.
- Great books, websites and apps to enhance learning.

RHYMING ROUND SINGAPORE

Created by Kathleen Chia and Linda Gan

It introduces the English alphabet in rhymes and songs that describe places, landmarks and other familiar aspects of life in Singapore. The unique feature of the book is that half of the rhymes and songs can be sung to the tunes of well-known English folk songs and nursery rhymes. *Rhyming Round Singapore* will enable young readers to learn the alphabet in a fun and novel way as it relates to the country they know and live in. It will also help them to recognise, pronounce and identify the rhyming words introduced in the rhymes and songs.

There is the accompanying CD that brings to life the songs and rhymes through highly entertaining and dramatic portrayal in songs and spoken words. The CD has both songs and instrumental versions with varied and upbeat accompaniment. Listening to this CD will enhance children's enjoyment of the rhymes and songs for each of the letters of the alphabet. In addition, as they listen, read along and sing along, it will support their reading and speaking, helping them with the correct pronunciation and rhythm of the language and how to fit the words to the music.

MIND JOURNEYS By Victoria Carlton

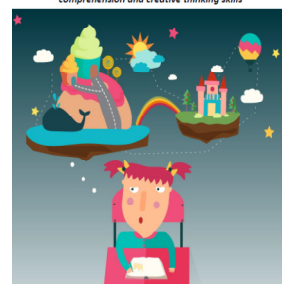

40 Visualisations to improve writing and comprehension and creative thinking skills for children of all ages

Mind Journeys is exactly what the name implies. It is the process of leading children through journeys of the mind to improve their ability to visualise, imagine, comprehend, concentrate and write coherently and creatively. Within this book I have provided 40 visualisations for you to try. Each one is a complete unit of work. Worksheets are also provided. There are 5 categories provided for these visualisations:

- Emotional intelligence to promote self-understanding and self-esteem
- Loving Literacy
- Celebrations and special days
- Our Wonderful World
- Flights of Imagination

- Clear and bright buttons
- Memory of up to 40 steps
- No confusing degrees to program
- Sounds and flashing eyes confirm your instructions
- Fantastic cross-curricular resources also available
- Moves accurately in 15cm steps at a time and turns in 90°

Size (L) 13cm (W) 10cm (H) 7cm,

NO MORE batteries - NOW RECHARGEABLE! Supplied with a USB lead, Bee-Bot® can either be recharged via your computer or a wall socket with a USB mains adapter (not supplied).

The Bee-Bot® App makes use of the Bee-Bot® keypad functionality and enables children to improve their skills in directional language and programming through sequences of forwards, backwards, left and right 90 degree turns.

Dash and Dot

Meet Dash.

Dash is a real robot, charged and ready to play out of the box. Responding to voice, navigating objects, dancing, and singing, Dash is the robot you always dreamed of having. Use Wonder, Blockly, and other apps to create new behaviors for Dash — doing more with robotics than ever possible. No books or camps needed!

Meet Dot

Dot is the brains of a robot. Dot comes with several games you can play right out of the box, such as Magic Dot Ball, Dot of Music, and Light Sword. Using free apps Wonder and Blockly, you get to see how these games are created, and make over a hundred more of your own games. The apps come with puzzles to guide you through — no books or camps needed!
