## Tenth Fitzroy Teacher Certification Course

The Fitzroy Programme of Readers and Word Skills is not just an ordinary set of storybooks and written activities with some phonics hints thrown in, it is a **systematic phonics programme**; graded and colour-coordinated according to the level of difficulty. Each child will know how they are progressing giving them a successful feeling of achievement.

From a family of over a hundred thousand English words, it is almost impossible to teach each and every one of them to a child! Many programmes proclaim to teach the right way, but fail miserably on their promise! This is one of the reasons why the Fitzroy Method has been developed: it teaches students how to unravel new or unfamiliar words, by first understanding and applying sounds and digraphs.

Due to the overwhelming response, we have invited Jeremy O'Carroll back to Singapore in November 2009 to conduct the **Tenth Fitzroy Teachers' Certification Course**.

**If you are interested in pursuing this certified course, please fill in the form early to guarantee a seat and at a special early bird fee.**

### 2 days Workshop Schedule
